

CONFIRMATION OF CARBON CREDIT RETIREMENT

Favini S.R.L

On 20 April 2026, 8,836 tCO₂e were retired on behalf of Favini S.R.L.

This document confirms the retirement of carbon credits from the REDD project in Brazil nut concessions in Madre de Dios, Peru (VCS 868), on the internationally recognised Verra Registry. The credits were independently verified for the relevant monitoring periods.

To address the unavoidable residual CO₂ emissions associated with its brands Favini, ALGA CARTA, TREE FREE, SPARTO, REFIT, REMAKE, CRUSH and SHIRO ECHO, Favini S.R.L. has supported efforts to protect the forest in Madre de Dios and prevent deforestation. The corresponding credits have been permanently retired, and their serial numbers are publicly recorded on the Verra Registry.

A handwritten signature in black ink, reading 'Kevin McGeeney', is positioned above the printed name.

Kevin McGeeney - Director of Sustainability & CEO

CERTIFICATE APPENDIX

VCS 868 – REDD project in Brazil nut concessions in Madre de Dios, Peru

Project Type: REDD+

Quantity of Retired Credits: 8,836 t

Serial Numbers:
